

GUN VIOLENCE PREVENTION LEGISLATION

My name is Lynn DiNanno. I am a resident in the town of Wilton, CT. I have three children under the age of 12. I want to protect my children and others, not guns. I am demanding safe rational gun laws.

It is that simple. I am not asking for a miracle. I am simply asking for legislation to make a move to ban high capacity ammunition magazines. There is **NO SENSIBLE** reason these should be allowed. These guns are for war and used to spray bullets...not for hunting or collecting. They are **TRUE KILLERS**.

Please make a **POSITIVE CHANGE** for the people:

- Ban high capacity ammunition magazines
- Strengthen the assault weapon band
- Require universal background checks

Let's make 2013 the year to **END GUN VIOLENCE!**

Connecticut and our nation need **COMMON SENSE GUN LAWS**.

It's now or never. Please Change the Conversation, Culture and Law. We must do everything in our power to prevent another Newtown massacre.

Many thanks for your consideration and attention to this plea.

Lynn DiNanno
