

Good morning.

I would like to express my views as a safe firearms owner who went thru the back ground process to receive my permit. I oppose anymore infringements on my rights as a law abiding citizen. Newtown was tragic and it was felt by everyone but I feel this is another knee jerk reaction. I feel we need to look further at the mental state of people and prevent them from having access to firearms. The law abiding people will be the ones respecting the laws and working for a safer community while the criminals will carry on with there way of life. I feel the Gun community should be invited in to become part of the solution instead of been left out in the cold and treated like were the problem. There are enough laws on the books to be enforced, do we really need to spend anymore time on laws that the good guys will be the only one's following. Lets use our time wisely and look deeper into the real issue of mental health in our communities.

Thank You.
