

Please legislators.

Why would you make me a criminal for owning something I bought legally in CT in November?

I am 46 years old, never been arrested, and bought my first gun. Its a rifle, yes, its a Colt, and yes its black. Why is this evil?

I bought it strictly for target shooting. Reason, its small, light, has light recoil, accurate, and has available large magazines so you dont have to reload all the time at the range. (they charge by the hour, and reloading magazines wastes time)
