

NOW IS THE TIME TO TELL LEGISLATORS WHAT YOU THINK.

We need, according to Ron Pinciario, of Connecticut Against Gun Violence and Mary Himes & Congressman Jim Himes to advocate for the following legislation:

- 1) Ban of high capacity magazine clips.**
- 2) Strengthen the current assault weapons ban so that there is no grandfathering or transferring to a relative and require all currently owned AW's to be removed from the state in 6 months.**
- 3) Redefine the AW ban so that it bans AWs with a detachable magazine clip and only one (not two) other common features of AWs. The current ban has allowed the gun manufacturers to easily re-design guns that have bypassed the existing ban.**

You can even copy the two or three sentences you wrote and paste them onto the next representative's letter. (Use control A to copy and control V to paste.)

Good luck on public advocacy!
