

In my lifetime, I never imagined the tragedy that occurred in Sandy Hook was possible. Since that day, I have made a pledge to protect my children, all children, in any way possible. That being said, I pledge my support of all legislation that promotes the safe, responsible use of guns in our society including proper background inquiries, safe waiting period, proper storage and a complete ban on all assault weapons. I expect our legislators to work toward this goal in creating a safer, saner society in which to raise our children.

Respectfully submitted,

Maura Connolly
