

January 28, 2013

As a resident of the state of Connecticut, and in light of one of the nation's worst gun-related tragedies, I urge Connecticut legislators to please pass the following proposed gun laws:

- 1) Ban assault weapons and ammunition magazines of more than 10 rounds.
- 2) Require background checks for all gun purchasers.
- 3) Report the sale of large quantities of ammunition to the ATF.
- 4) Limit the scope of concealed weapons laws at the state level.

Enough is Enough.

Please take this important step.

Thank you for making Connecticut a safer state in which to prosper happily.
