

I have lived my whole life in CT. I have been an avid gun shooter since a young age and hunting since I was 12. Growing up with knowledge and respect of firearms. CT has one of the stricter laws already in the country. Bad things are going to happen no matter what laws you pass. Criminals are not going to follow the new laws when they obviously do not follow them now. You are trying to turn law abiding citizens into criminals for what you as a state allow. I do not support any new gun legislation that does nothing to reduce crime and keep our children safe. These new laws you are trying to pass will not make my kids any safer then now. Do not take away our rights as American citizens.

Thanks

Michael Corentin, Vernon
