

Dear board I'm requesting for you to vote against any of these bills . By taking the honest peoples gun rights away is not the answer I myself am a law abiding citizen who is an avid shooter and promote the sport when ever I can. I hope to teach my children to shoot one day in the sport as responsible law abiding citizens if you decide to vote on these new gun laws it would effect thousands of law abiding citizens. There are a lot of handguns and semi auto rifles out there that hold more than 10 rounds in a magazine. So all I ask for you is to vote against these bills because I feel it is unconstitutional and against the second Amendment please remember you too are American if you are a shooter or not and would like to know more about the sport I would take you myself and show you this nothing wrong with a gun that holds more than 10 rounds in a magazine so please don't go against the American people and punish those who have done nothing wrong . All that will do is give the criminals a bigger advantage

Thank you
