

Dear Group Members,

I am a 59 year old law abiding, tax paying, citizen of Connecticut. I'm also a gun owner. Before you make any recommendations on what type of gun I can or can't own or limit the amount of rounds I can load them with please consider this. Are you not then morally obligated to assure my family and I that the person or persons that may break into my house one night are similarly restricted?

We are all in favor of reducing gun violence. It seems to me that the first step in this process should be to determine exactly who it is that is responsible for this violence. We all know the answer. Criminals and lunatics. Let's put all this zeal and energy into putting criminals in jail and keeping them there! Let's put all this zeal and energy into identifying these lunatics before they can go into our malls, theaters, homes and schools to murder our children!

We go to great lengths to ensure that the rights of these Monsters are strictly adhered to. Please show me and all the other tens of thousands of responsible law abiding gun owners the same consideration. DO NOT abrogate our constitutional right to keep and bear arms!

Thank you,  
Mitch D'Andrea
