

I am a mother of two young girls and living in constant fear, My mother in law was killed in a random shooting in Binghamton along with 12 of her students. Now Newtown, 20 minutes away from me. These tragedies have become too common and have to stop. Please get rid of assault weapons and high capacity ammunition. why do we need them? Please let me raise my kids with peace, not fear.
Thank you, Nina King 112 Westwood Rd, Fairfield, CT 06285
