

Please do add my voice to the many who are working and praying for a safer and nonviolent America.

I ask that we have stronger controls on purchasing guns, with everyone no matter how and where, needing to have both a background check and be registered before purchase of any gun. The same goes for anyone who is purchasing ammunitions.

Please ban assault weapons that are like those used at Sandy Hook.

I know we need to do other things, too, but this is one that is concrete and realistic. Make it hard to impossible for violent people to get their hands on a weapon of mass destruction!

Thank you for listening.

Patricia Francek
