

This will be my last email for the time being.

It seems that we were playing in a rigged game.

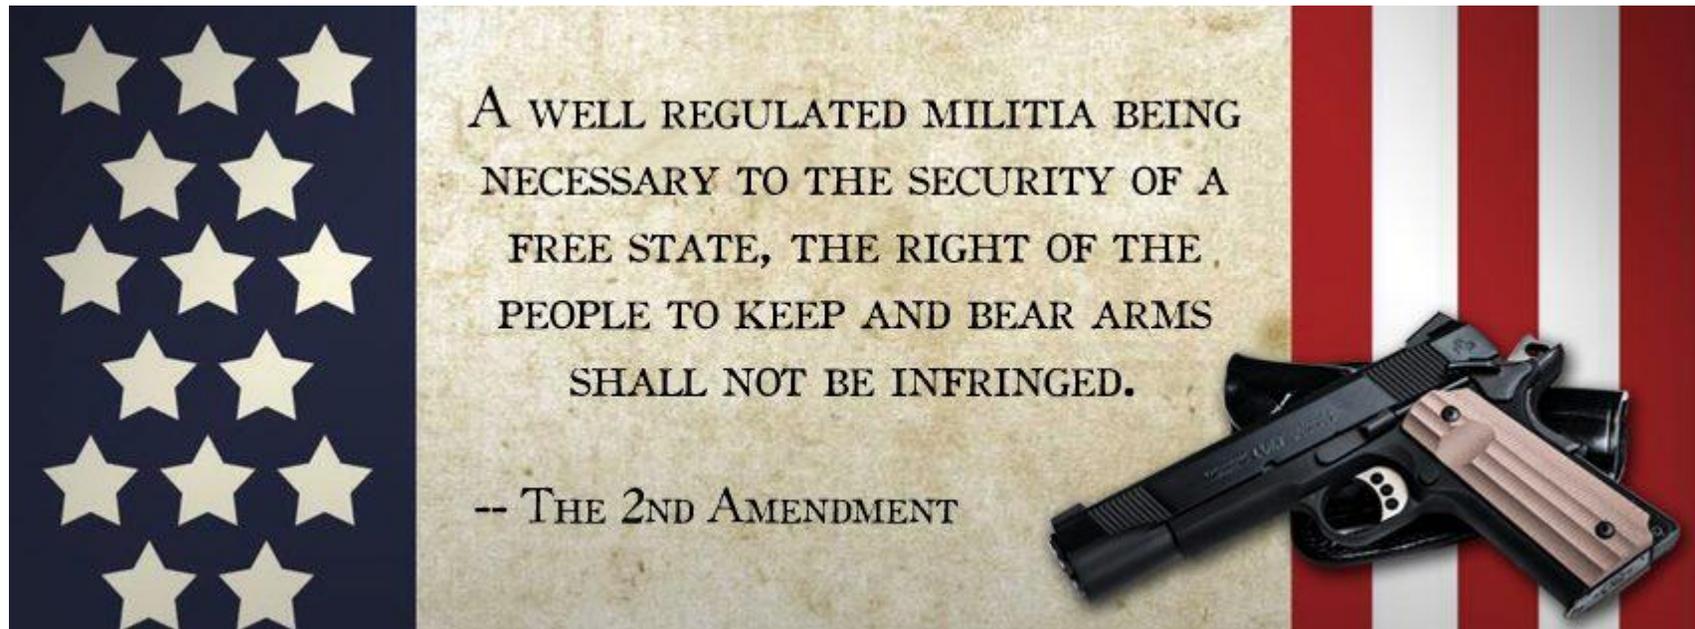

Despite the overwhelming testimony in CT (NY got steamrolled) our legislators ignored our voices and more importantly our rights.

They will be held accountable in the upcoming elections for several years to come.

We will now move forward in the courts to protect our rights.

For the past three months, I spent significant time each day to research the ongoing gun debate in our country/states and send out this email. I hope that it was informative and helpful.

GOD BLESS THE AMERICA WE PREVIOUSLY KNEW.
