

To :

Gun Violence Prevention & Children's Safety

I oppose any proposed gun related restrictions

Firearms ownership is a guaranteed right. Firearms are heritage and part to where we are as a country now. Those who vote on legislation take oath to preserve and protect the constitution which includes the bill of rights. Certain Proposed legislation is prohibition of most all current technological advances in the industry that we have supported and invested in for decades. This state has already regulated handguns and pistols to the point of infringement, now you're suggesting doing the same to semiautomatic rifles, impose prohibitive sanctions including but not limited to unfair taxation on the people that lawfully use firearms thus damaging commerce. Responsibility and limitations, regulations are now and have always been a part of firearms ownership. The nexus of your legislation should not be prohibition but prevention. Not infringement of my god given rights.

Evil is something that cannot be legislated away.

Taxpayers cannot afford to waste money on non proven legislation and costly enactment. Ideas don't always work. It is time to use resources to our secure schools and guns. Choose proven ways secure children's safety.

Provide incentive for all firearms/weapons owners to own safes with minimum standards.

Make available common sense fail safe weapons storage protocol.

Sincerely

Pete chalecki
