

Senators and Representatives,

I urge you to OPPOSE any anti-gun legislation in the Connecticut State Legislature. While the events at Sandy Hook are tragic, we all know that outlawing certain types of guns will not prevent future problems. President Obama is protected by armed Secret Service agents. TSA officials at airports are armed. And the police are armed. Our children deserve no less protection. If guns are outlawed, that will not stop criminals; it will only render law-abiding citizens defenseless against criminals. Anti-gun legislation is the wrong solution because it will not work: please oppose it, and replace it with effective solutions.

Sincerely,

Ralph A. Martin, MD
