

To whom it may concern:

Please take a good look at how we can prevent guns from killing innocent lives here in CT. Educating our children and parents about the danger of fire arms may help all of the communities to be more responsible. Our children are infested with violent video games which numbs them to killing anyone and anything. I am part of the problem too since I allow them to watch some of the violent shows and video games. I don't have the answer on how this should be started but I believe that we need to keep working on a solution so that no more innocent lives are lost to unimaginable gun violence.

Thank you for your time.

Sincerely,

Riye Aoki, D.O.
Redding, CT
