

Greetings-

We all have a responsibility as citizens to protect our lives, liberty, and pursuit of happiness. That means we must STOP gun violence for all. No person can live free when military-style assault weapons are accessible, rightly or wrongly, to the general public. The opportunities for their abuse, whether in crimes of passion, delusional mental illness, or outright criminality tips the balance in favor of chaos, and the destruction of civilized society.

We must:

- Develop a database of qualified gun owners and weapons for use by law enforcement officials
- Eliminate porous identity checks which allow unskilled and criminal shooters to have access to weapons
- Stop sales of military-style fast-discharge weapons and ammunition clips
- Support buy-back programs to reduce the proliferation of weapons
- Support improved safety education, mental health screening and treatment programs

The Second Amendment never envisioned modern weaponry, nor guaranteed possession of assault rifles. We have tolerated the massacre of our citizenry too long. Stop the gun madness NOW.
