

Attention Gun Violence Prevention Group

Dr. William Petit, whose family was killed in 2007 was a close friend of my sister-in-law. In addition to this, I live a few miles away from the Cheshire Correctional Institution. As long as the CT legislature allows early release of criminals, I am absolutely opposed to any reactionary legislation that further encroaches upon the rights of **responsible and legal gun owners**. I have the right under the Connecticut and United States constitutions for self defense!

I think of Doctor Petit and his murdered family every day. Governor Malloy is against the death penalty, but would have no trouble defining good guy gun owners as felons.

Cheshire police sat across the street while those murdering rapists had their way with Dr. Petit's family! WE ARE THE FIRST RESPONDERS! Do not take away my GOD given right to protect my family!

A law that violates our State and National Constitutions should not be obeyed.

Sincerely:

Robert Bouchard

Plantsville, CT
