

To Whom it May Concern,

I'm writing you today as a concerned citizen of the State of CT. I'm a Deputy Fire Marshal for the Town of Stratford and I'm also a Law abiding legal gun owner with a permit to carry.

I ask that as elected lawmakers for the State of Ct, you uphold The Constitution of the United States, The Constitution of the State of CT, and protect the 2<sup>nd</sup> Amendment and SHALL NOT Infringe on my Rights to bear arms. I ask that you remember your oath to protect our rights.

While there will always be bad people and criminals in this world the majority of citizens are law abiding and deserve to have their rights protected. The proposed gun control legislation will not do anything to reduce crime as Criminals do not obey the law. You will only make it easier for more crimes to be committed without risk, while treating law abiding gun owners like criminals. I oppose a Assault Weapons Ban and magazine size restrictions- Limiting the amount of rounds to 10, limits myself from protecting my family.

Again law abiding citizens did not commit any crimes and should not be punished. Look at Chicago for how well gun control is working. PROTECT THE 2<sup>ND</sup> AMENDMENT AND DON'T INFRINGE ON OUR RIGHTS! Thank you for your time.
