

Greetings,

I am writing to express our organizations concern with recent legislation that is proposed for our state in reaction to the tragedy in Newtown, Connecticut. With that, our organization has taken a clear stand on various bills, public acts and proposed laws that we deem would be disadvantageous to responsible disabled firearms owners. Disabled Americans for Firearms Rights intends to shed light on the fact that tens of thousands of disabled Americans can only use certain types of firearms such as the highly adaptable AR15 rifle platform. A ban or other serious restrictions on the AR15 rifle as well as certain other firearms will have an adverse effect on the rights of thousands of disabled Americans.

Please find attached PDF files which will give you some information on what Disabled Americans for Firearms Rights does, and how certain gun control measures and restrictions are disadvantageous to many responsible disabled firearms owners. I respectfully ask that you read the information I have provided to learn more. We are looking to inform the general public, media and news organizations, as well as our elected officials about this very overlooked aspect of the gun control debate.

If you have any questions on how various firearms laws are disadvantageous towards disabled firearms owners, please do not hesitate to contact me personally.

Respectfully,

Scott Ennis
