

Distinguished representatives,

I stand apposed to further regulation on magazine capacity and limitations on firearm types.

The ban of 1994 did not prevent the Columbine shooting. Gun violence actually fell by approximately 50% after the gun ban was lifted.

Chicago has some of the toughest gun laws in the nation yet it's murder rate is more than alarming, easily leading the nation.

The proposed taxation and fees will deny lower income individuals their Connecticut Constitutional rights under Article I, Section 15.

Any laws or regulations passed that make me and my fellow legal firearm owners felons are retroactive punishment and may be illegal under the U.S. Constitution,

These laws or regulations proposed will be nearly un-enforceable and extremely costly, diverting law enforcement, courts and legislators from performing their duties.

I am a fifteen year US Army veteran with experience and expertise in nearly every weapons platform in the US inventory before 1990. I am a licensed CCW holder. This license certifies that I am not insane, not a felon, not a drug addict. If you pass these regulations I will be considered no different than the criminals in this state that could care less about these proposed laws and regulations.
