

To the members of the task force for gun violence, I am writing to you in regards to my opposition of any new gun control laws. As a parent I feel genuine sorrow for the horrible loss at Sandy Hook, but I refuse to believe for one minute any new gun laws would prevent another such a tragedy. I have been a responsible, safe and considerate person in the shooting sports for over 30 years. I am tired of being punished and harrassed everytime an act of violence is comitted with a firearm. I do not want to be stripped of anymore of our freedoms, told what kind of firearm I can possess or how many rounds its feeding device may contain. This is our second amendment this is our right!
