

As a neighbor of Sandy Hook, mother of two school aged children and active school volunteer for the past decade, I was deeply saddened by the massacre of 26 innocent people! I honestly do not think anyone needs guns. But given the unlikelihood of this ever happening, I urge you to:

1. Require universal background checks for gun purchases
2. Require gun owners to lock up guns
3. Ban assault weapons like the one used in Sandy Hook

I urge you to make these changes. No more innocent lives need be lost! We have suffered enough as a society. Anything less than these changes would be unconscionable.

Susan Bard, Redding CT
