

Dear Legislator;

I want to reiterate there is no emergency regarding gun control issues. Please do not bow to pressure and circumvent our process.

Each citizen has a right to testify at public hearing prior to any law being enacted. It is foolish to make law based on any event prior to having a complete understanding of the cause. You should wait until the final police report is issued and studied rather than rushing forward blindly.

If we simply enforce current law, treat mental illness and keep criminals in prison many crimes would be stopped without any further legislation.

Your fellow citizens spoke loudly against any further erosion of our rights during the SB 1076 public hearing. You as elected representatives must follow our wishes.

Thank you,

Suzanne Nintean
