

Dear Legislators,

I'm writing from Weston CT, a few miles away from Newtown CT. I'm still in shock that such a tragedy could happen in our immediate community, but I'm not longer in denial.

SOMETHING needs to be done to control gun availability and subsequent violence in our communities.

Please help to do anything in our power to keep our community safe from this every happening again.

Our own town government is waiting and watching to see what you pass, as are all of us tax payers and voters. Please stand up to the gun lobbyists and enthusiasts!!

PLEASE support stronger measures for access to mental health support. PLEASE pass school security measures that support our school administrators in keeping the innocent children safe.

Do the right thing for our state as the world watches you.
