

I am a Sandy Hook, CT resident. I have been an NRA member. I believe in the second amendment. My son has mental health issues. In addition to universal background checks, banning assault style weapons & large clips and mental health reform, I believe the two following points need to be addressed:

Gun control will not be effective without border control.

The assault weapons already in circulation need to be removed. There needs to be a federally funded gun buyback program with an enticing incentive for assault style weapons. Make the payout high enough (maybe \$1k per) so that these gun owners choose the payout over the weapon.

Thank you for your time and consideration.
