

Dear Senators, Representatives and Fellow Citizens,

Read below. This is what I fear more than any other action proposed to be taken by legislators in Connecticut or anywhere else. My love for my country would be imperiled by such suggested happenings.

"A Milwaukee County Sheriff has warned that a second American Revolution may be sparked if unconstitutional gun laws are enforced by police and sheriff's department officials. Sheriff David Clarke recently urged the citizens he serves to consider learning firearm safety because of "a duty to protect yourself and your family."

In a message posted on the Sheriff's website, Clarke wrote "I need you in the game, but are you ready? With officers laid-off and furloughed, simply calling 9-1-1 and waiting is no longer your best option. You can beg for mercy from a violent criminal, hide under the bed, or you can fight back; but are you prepared?"

"Consider taking a certified safety course in handling a firearm so you can defend yourself until we get there. You have a duty to protect yourself and your family. We're partners now. Can I count on you?" the message urged.

Speaking on the Alex Jones Show yesterday, the Sheriff hit home his opinions on the gun control proposals that are being pushed via presidential executive orders.

"First of all, to me that would be an act of tyranny. So the people in Milwaukee County do not have to worry about me enforcing some sort of order that goes out and collects everybody's handgun, or rifles, or any kind of firearm and makes them turn them in." Clarke said.

"The reason is I don't want to get shot, because I believe that if somebody tried to enforce something of that magnitude, you would see the second coming of an American Revolution, the likes of which would make the first revolution pale by comparison." the Sheriff urged."

I pray that it never comes to what the sheriff said.
