

I find it amazing that our elected government is trying to take away my rights or alter those rights when they don't even know the difference between a clip or a magazine. How can you make an intelligent decision on this when you have no clue it? Seems like a great way to proceed!

I will not allow you to do this. The laws you are proposing will not work. The only people you are limiting are the law abiding population. Criminals and evil people will have guns. The only change you will make with these laws is i will not be able to defend myself or my family.

I have a hard time thinking you are smart enough to make any gun control that makes sense when you can't make a state budget that works. I can tell you not only do I pay my bills on time but I also don't spend more money than I can afford to spend. If I can't afford it, I don't buy it. Here is another bit of advice, learn and understand what you are planning to talk about before you speak.

Please understand that I will do all I can to vote you out of office based on your votes.

Thank you for your time.
