

I support stronger gun control regulations in the State of Connecticut.  
I grew up in Newtown, CT and currently live in Wilton, CT.  
Specifically:

Stronger Universal National Background Checks prior to purchasing a weapon.  
Assault Weapons Ban - I'd prefer to see no grandfathering. I do not know how to achieve this.  
Ban Large magazine ammunition sales.

I would like to see CT require owners of weapons to pay annual licensing fees. If dog owners need to comply with leash laws and licensing, then gun owners should do something similar. I would also like to see a liability insurance requirement. It should be a no fault type coverage and equal financial responsibility laws similar to automobile liability rules.

I generally support the agenda published by GAGV.
