

Bipartisan Task Force On Gun Violence Prevention And Children's Safety Schedules Hearings

Please do not infringe on our countries 2nd amendment rights by making a knee jerk reaction to a very sad circumstance. Your time working on a mental health solution would be more appropriate and timely.

Remember just as a car is not to blame for the car wreck, the firearm is not to blame for a shooting. Let's make personal responsibility and our attention to a mental health solutions our priority.

Thanks for the opportunity to give my opinion.

God bless the USA.
