

The weapon used at Sandy Hook was purchased AFTER the ban on this type of weapon was allowed to expire. How could the number of times the victims were shot be so great if these weapons were not available and magazines of more than 10 rounds were not available. I support a law banning these weapons and magazines.

I also support laws requiring a 30-60 day waiting period to allow a complete background check between the purchase of any firearm and its possession. The background check should include, and disqualify, anyone with a drunken driving, assault, or domestic violence report within the past five years. School records with these reports should be available for this background check.

I also support register of all guns with the local police and the renewal of this register each year. Ammunition cannot be purchased without this notice of register. I say this as a long time gun owner.
