

I as an American citizen practice my 2nd amendment rights. I am a gun owner and carry my pistol permit. I am for better back round checks regarding the purchase of guns and ammo but the majority seem to be focused on those of us who have had gone through the process of obtaining our permits legally. I want to push the government to take the focus off of us and push towards those whom obtain guns and ammo illegally. In Newtown, Ct , unfortunately mom was a permit holder and should have been more responsible with a man in the home with some form of mental illness. The media blows this scenario out of proportion making it seem as though gun owners are to blame. We are not!! Please support gun owners to keep our 2 nd amendment rights.
