

January 25, 2013

Dear Representative Kim,

There is no need for a civilian to own any kind of assault weapon or own clips with more than 5 bullets. Yes and there should be thorough and easily accessible background checks whenever any gun is sold or transferred. Finding those who are mentally ill who should never be allowed to own a gun could be like finding a needle in a haystack.

People too quickly forget those who are seriously wounded in these unnecessary mass shootings. In Aurora these unfortunates were given \$200,000 each, which does not cover the cost of a lifetime of care. We are disabused too quickly of the terrible hurt that is visited on the families of the murdered and seriously wounded. All assault weapons should be banned and there should be a legally passed buyback program for all types of guns. Bullets and gun clips.
