

# GREEN CAPITOLS PROJECT

## WET WEATHER MANAGEMENT

### POROUS PAVEMENT

**Permeable Concrete**

**Pervious Surfaces**

**Permeable Pavers**

**Pervious Paving**

**Permeable Pavers**

- ◆ Pavers contain space in between the blocks or grids to allow for infiltration
- ◆ Reduces stormwater runoff
- ◆ Recharges groundwater
- ◆ Filters pollutants for biodegradation

**Pervious Paving**

**Porous Parking Areas and Walkways (Asphalt and Concrete)**

- ◆ Reduces stormwater runoff
- ◆ Recharges groundwater
- ◆ Eliminates Ponding
- ◆ Filters pollutants for biodegradation
- ◆ Helps to control local flooding

**Permeable Pavers**

**Pervious Surfaces**

**Permeable Pavers**

10 0 10 20 30 Feet  
1 inch = 30 feet
