Subject: Pet store animals from Mills

As a dog owner I support all that can be done to shut down the puppy mills.

The mills have turned the pet dog & cat into disposables. The conditions of many mills are deplorable & cruel. It is heartbreaking for any animal lover that this is allowed to continue. The MILLIONS of animals euthanized every year in the US is so not necessary.

The pet stores are one step in the right direction. The internet is another that needs to be addressed. The mills need to be closed.

Please pass amendment to HB 5027 that would only allow pet shops to sell shelter dogs & cats
