Message Body:

I support the choice to purchase a pet anyway I wish. I have brought three pets from All Pets Club and I have been completely satisfied in the way they care for the pets that they sell. They are not kept in cages but in enclosures so they can socialize with other animals. It is very clean and the animals are happy and well taken care of. Please do not take away the choice on how we are to choose our pets. This is our right as pet owners!
