Message Body:

It is unbelievable to me that the thought of some group to take away "MY" rights is even being brought to the table. To close "ALL" Pet Stores? Really? How about going after the out of state breeders? My husband and I have purchased two of the most amazing Dachshunds from Gentle Jungle. Barney is 10 1/2 years old and Skooch is 3 years old. I can't "imagine" our lives without them. To have a "group" come in and try to take away "my freedom" of choice is dispicable to say the least. Though your cause appears to be a good one, your going after the wrong people. Go after those dirty breeders and leave the Pet Stores alone. You have absolutely "no" right to tell me or anyone else where we can or can not purchase a dog/cat. The last time I checked, I live in "AMERICA". Leave "my rights" and my "FREEDOM" of choice alone. Period!!
