Message Body:

i purchased my dog at pet club...he is my best campion and friend...recently widowed he fills a living space in my home...the folks at the store were wonderful and caring...they made several follow up calls after i had brought jack, my dog, home and made themselves available if i had any puppy questions....the facility is always clean and the pups are well cared for..the paper work for each dog is fully documented and detailed....i would and have recommended them as a source to consider when looking to bring a dog into anyone's home....
