**Message Body:**

In February 2012 I bought a golden retriever puppy from All Pets Club in Wallingford. The dog was clean and healthy, and came with a family tree, a veterinarian's record, and pictures of his breeder's facility in Kansas. The staff also knew a great deal about the quality of this breeder; and they clearly had taken a personal interest in the welfare of my puppy before I met him. Now, every time I take my dog to the vet, or run into a hobby breeder or anyone who knows a lot about dogs, they think my dog is the most beautiful golden retriever they have ever seen.
