Message Body:

I am for the choice to purchase puppies in the State of Connecticut. We purchased our dog at All Pets Club in Wallingford, CT. Having never owned a dog before, we wanted a puppy. The dogs at All Pets Club are housed in rooms where they can romp and play and snuggle for comfort. It is good socialization. They also have cubicles where people can take the dogs and interact with them. We are so happy with our dog. He is so good natured and loves animals and people. We went to All Pets Club because of the good experiences of family and friends. I would recommend anyone I know to purchase a puppy there. Perhaps the State of CT should see what they are doing right and use it as a model for other pet stores. People should have options!!
