

Please I ask you not to raise our taxes! I lived and worked in Danbury, CT all my life. I worked hard to own my own home because I loved CT, lost my husband and raised my daughter on my own since she was 9 and paid for her college tuition. Now I can't afford to live in CT. It breaks my heart and so lowers my hopes of staying in CT - the state I loved so much. I am close to retirement but looks like I won't have anything to retire with because it all be going to the state. It will force me to move.

Thanks for listening!

Vera Delohery
