

To Whom it may concern

I have lived in Ct my whole life.I really would not like to live anywhere but Ct.With expenses going up on food and almost anything you buy it makes it hard to live in a state that is so heavenly taxed as Ct.Couple this with a good amount of seniors who live on a fixed income it makes it impossible to live here.It comes to the point that you really love it here but you can't afford to live here.

In my town (Bristol) it has been said that we don't pay enough taxes.In my town tax dollars are miss spent every day on things that bring no return on our money.Muzzy Field and Rockwell Park were up graded to the tune of almost Eight million dollars,we have land that we bought that is empty for 15 years we have Depot Square which has been empty for 10 years.There could be tax dollars coming in these places,instead we remodel places were you will never get your money back.

In a lot of towns property taxes are frozen at a certain age.But not in Bristol.

I think what bothers me the most is the spending of tax dollars the wrong way.We have spent 8 million dollars on Muzzy Field and Rockwell Park while I like what they did it was way too much in theses economic times,without getting a return on your money.It is very easy to spend someone else money.

There is a lot more I could say but I think you get the point
