

CT is in the top 10 states of everything bad. Taxes of every kind, death burden, fuel costs, people leaving state, businesses leaving state. transportation/road conditions. These are just the beginning of every bad reason to move into or to stay in CT.

Immediate lowering of all taxes on all items must start now.

Cut exorbitant salaries and retirement plans for all state workers starting immediately.

Cut the rewards and payoffs to all buddies/cronies (hags and crones) now.  
Cancel all contracts awarded to these immediately.

Louann Hart
