

I feel very blessed to have my job as a teacher in the Norwalk Public Schools yet I'm very concerned about retiring here in Connecticut. State tax, sales tax, gas tax, personal and town property tax and many other "state" fees take a huge chunk of income from our checks. If residents have children, it is very difficult to keep up with the bills and finances in our state. I moved from New York to Connecticut 26 years ago thinking the "grass was greener on the other side". Wow!!-I was wrong. Thanks a lot Lowell Wieker!

I vote **No** increase in Ct. State income tax.

I vote **No** increase in gasoline tax. Don't take advantage of the CT residents just because gasoline prices have dropped.

Notice, I understand we need to fund the services of this state but increases in these taxes hurt alot.
