

Perhaps the Governor didn't notice that some 13,000+ people have left Ct. losing AGI of 4.8 billion dollars. Soon there will not be enough people to tax to cover his bloated budgets. Having lived in this state for more than 50 years I have seen liberals destroy a state that used to live within its means into the 3rd worst state in the country. When GE leaves, maybe he will pay attention.

William Moore
