

Sirs: If I weren't in my mid-80s. I would be gone from this state already. The taxes here on everything are unconscionable. To tax and re-tax savings, lifetime earnings etc/ is plain thievery. I have plans to relocate to my daughter's home in another state but am not quite ready to do that but if something doesn't change with the hate-Fairfield County tax structure in CT, I will move sooner rather than later.
