

Please, if you haven't noticed, folks, businesses are leaving, relocating elsewhere due to the high cost of living in CT ( Danbury).

We will soon be a city of renters and no owners. The climate is not enticing people to stay ( young or old). Wages don't support the high cost of living here. Business is not attracted and/or are leaving due to taxes. Their employees will relocate to be in a more affordable area with a job!

CT is ranked among the MOST UNDESIRABLE STATES TO LIVE IN!

Wake up CT. You need stable, employed people that want to "grow" the state and with the state.

Thank you.

Ann Rabuse
