

**Name:** William Connell

**Title:** My opinion

**Organization or Agency:** Machinist

**Topic:** Connecticut Data Analysis Technology Advisory Board Public Hearing  
Opposes

**Testimony:**

No need to analyze data and equity. It seems like all the members of this group are out of touch ivy leaguers who have never worked with their hands. I bet you never had to fix a car's engine or work on an assembly line. You all eat your crudités and laugh at us.

Real people don't care what pronouns y'all put in your email. Every member here needs to grow up and get out of the lecture hall with your multiple degrees. My tax dollars shouldn't pay for someone to get a free cell phone or computer. My tax dollars should not pay you to talk down to us with your graphs and data. We as citizens need help and this isn't it. Lower our taxes and we can figure out WiFi on our own dime.
