2018 Annual Report to the Higher Education Committee

Prepared by:

University of New Haven
Caroline Koziatek, Vice President of Human Resources, Diversity Officer, Title IX Coordinator
Rebecca Johnson, Vice President of Student Affairs, Dean of Students, Deputy Title IX Coordinator
Ashley Dunn, Assistant Director, Student Life Programs & Title IX/VAWA Compliance
This report presents information about sexual misconduct policies, procedures, and institutional conduct reports at the University of New Haven. This report is intended to comply with the regulations of Connecticut Public Act 14-11, An Act Concerning Sexual Assault, Stalking, and Intimate Partner Violence on Campus, as well as to inform the Joint Standing Committee of the General Assembly of the efforts the University has taken to combat sexual violence on its campus.

**Title IX and Sexual Misconduct Policy**

The University of New Haven Title IX and Sexual Misconduct Policy is updated annually to reflect best practices, community feedback, and the revisions suggested by the University’s Campus Resource Team (‘CRT’). The University’s Campus Resource Team meets approximately twice each academic semester to review the University’s policies and procedures related to Sexual Misconduct. The Campus Resource Team, in coordination with the Dean of Students Office, enacted a number of revisions to the policy with a primary focus on increasing the document’s clarity for its intended audience. Revisions to this policy ensure that the institutional procedures taken during sexual misconduct investigations are clearly articulated within the policy. Additionally, the policy was reformatted to ensure that listed definitions were appropriately categorized based on content.

The University’s Title IX and Sexual Misconduct policy details the procedures that students, employees, and visitors of the institution who report or disclose being the victim of sexual assault/harassment, stalking, or intimate partner violence, may follow after such an incident. Additionally, the policy provides University members with information regarding who they may report or disclose an incident to, as well as support and advocacy service information. This policy also delineates the options a reporting party or individual who submits a report of an allegation of sexual misconduct, may take regarding a criminal complaint, institutional complaint, or confidential report. The Sexual Misconduct Policy provides information regarding informal remedies, interim measures and accommodations available to community members, and information regarding the University’s compliance with court ordered protective orders.

The University posts its Title IX and Sexual Misconduct Policy in written format in our student handbook (www.newhaven.edu/studenthandbook) and on the University’s website (www.newhaven.edu/sexualmisconduct) for the campus community. Please see the provided copy of the University’s Title IX & Sexual Misconduct Policy for additional details.

**Educational Programming**

It is the policy of the University to offer programming to prevent domestic violence, dating violence, sexual assault (including stranger and known offender assaults) and stalking annually. Educational programs are offered to raise awareness for all incoming students and employees, and are often conducted during new student orientation, throughout an incoming student’s first semester, and new employee orientation. Programs, and other campaigns, offered throughout the year to all students and employees include strong messages regarding not just awareness, but also primary prevention (including normative messaging, bystander intervention, and the interactions between sexual assault and substance use). Additionally, awareness initiatives are designed to discuss institutional policies on
sexual misconduct as well as the Connecticut definitions of domestic violence, dating violence, sexual assault, stalking and consent in reference to sexual activity. Programs also offer information on risk reduction that strives to empower victims, how to recognize warning signals and how to avoid potential attacks, and does so without victim blaming approaches. Bystander engagement is encouraged through safe and positive intervention techniques and by empowering third-party intervention and prevention such as calling for help, using intervention-based apps, identifying allies and/or creating distractions. Bystander empowerment training highlights the need for those who intervene to ensure their own safety in the intervention techniques they choose, and motivates them to intervene as stakeholders in the safety of the community when others might choose to be bystanders.

Primary prevention programming has been defined by CT Public Act 14-11 as, “institutional action and strategies intended to prevent sexual assault, stalking, and intimate partner violence before it occurs by means of changing social norms and other approaches, including, but not limited to, poster and flyer campaigns, electronic communications, films, guest speakers, symposia, conferences, seminars, or panel discussions”. Awareness programming has been defined by CT Public Act 14-11 as, “institutional action designed to communicate the prevalence of sexual assaults, stalking, and intimate partner violence, including the nature and number of cases of sexual assault, stalking, and intimate partner violence reported at each institution of higher education ... including but not limited to poster and flyer campaigns, electronic communications, films, guest speakers, symposia, conferences, seminars, or panel discussions”. Accordingly, the following represent the University of New Haven’s primary prevention and awareness programming designed to prevent all types of sexual violence.

The following are programs and trainings presented by the University of New Haven in collaboration with the Rape Crisis Center of Milford:

### Types of Educational Programming

**Campus Clarity Online: Think About It Course**

Multiple platforms have been utilized by the University to achieve education and awareness with the primary goal of preventing further assault. For incoming students these platforms include online trainings completed prior to on-campus arrival and bystander intervention training administered by Wellness Peer Educators.

The University utilized Campus Clarity by Everfi’s *Think About It* course for incoming students to achieve education and awareness on campus and to comply with VAWA primary training requirements for the fourth consecutive year. Incoming students were divided into two groups, those that are under the age of 21 and those over 21, to determine those students who should receive the new *Adult Learners* module for nontraditional students. Campus Clarity by Everfi’s *Think About It* course for incoming undergraduate students was administered to 1538 students, the *Adult Learners* course was administered to 200 students, and the *Graduate* course was administered to 670 graduate students in the 2017-18 AY.

This course introduces students to the concepts of rape/sexual violence myths, substance use/abuse, bystander intervention, and safety on campus. After further research, the University decided to utilize the *Graduate* Think About It course for all incoming graduate students, in addition to all incoming undergraduates beginning in 2015-16 AY. In response to student feedback regarding the appropriateness of some content for particular ages, specifically students age twenty-two and older, the University of New Haven pursued Campus Clarity’s *Think About It: Adult Learner* course. This course eliminates the discussion of underage drinking and focuses its attention on addressing age appropriate scenarios related to substance use, healthy relationships, sexual misconduct/harassment, and bystander intervention. Similarly, the *Think About It: Graduate* course is designed to provide specific examples of misconduct related to a graduate career and acknowledges that graduate students have a base level of knowledge on such issues.

During the 2017-18 AY, the University administered parts one, two, and three of the undergraduate module.

This academic year, 2018-19 AY, Campus Clarity by Everfi’s *Think About It: Part One* course has been administered to 1470 students, the *Adult Learner* course was administered to 92 nontraditional students (22+ years of age), and the *Graduate* course was administered to 304 graduate students. At the time of this report, each of these courses are still being actively administered and provided to incoming students. With Campus Clarity by Everfi’s software, the University is able to increase overall completion of the online modules through email reminders, and in-class reminders.

*Step Up! Bystander Training and SDEV 1000 Course (Current)*

During incoming student orientation, the Dean of Students Office provides a ninety minute presentation that serves as an introduction to the *Step UP bystander program*, developed by the University of Arizona C.A.T.S. Life Skills Program in partnership with the NCAA. This presentation includes information about the concept of bystander intervention, strategies for safe and effective intervention, different types of interventions, and available University resources. This session is offered twice during orientation, so all incoming students attend. Attendees participate using Campus Labs Baseline technology, which allows students to simultaneously self-report their perceptions of hook-up culture, substance use culture, and other issues. This self-reported information is streamed anonymously into the presentation and serves to demonstrate students’ perceived notions of the campus climate versus their actual experiences and behaviors.

For the 2015-16 AY, bystander prevention was strategically redesigned to provide the bystander training under the umbrella program of Step UP, with the slogan: ‘Moving from Bystander to Upstander’. This training is hosted in two of our premier classrooms, which allows the presentations to be administered
in fifty student sections. Due to the increase in the University’s first-year student population, the course sections has been increased to hold sixty students since the 2017-18 AY. Additionally, the bystander training is housed in University Student Development course (SDEV 1000) that all first-year and transfer undergraduate students are preregistered for on their course schedules. This course is described to students as the promotion of knowledge of University policies regarding sexual violence and safety by teaching students valuable bystander intervention strategies that can be used to foster the development of a safe and educational campus climate.

The presentation provided in this course is given by annually trained Wellness Peer Educators, and includes three short videos, interactive discussion exercises, and policy review. The first video, Step Up – American University, utilizes the Step UP framework (previous referenced) to teach students how to intervene using five safe and effective steps in a variety of problematic situations, including mental health, hazing, substance use, and sexual violence. The video also emphasizes the three main techniques for positive intervention in such situations, which includes Direct, Distract, and Delegate. Thus far, we have received comments from students that the first video seemed resonates with them as the actor portrayals of each scenario are realistic and plausible. Additionally, students comment that American University’s Step Up video provides clarity to the message that there are multiple effective methods to intervening in most problematic situations, and that students have realistic options to seeking peer assistance. These comments serve as an impactful talking points for peer educators to enhance the perspective that utilizing five steps for intervention, as designed by Step Up, is an effective technique to create a safe learning environment for all students.

The second video was chosen to demonstrate victim blaming statements that perpetuate rape culture within our environments, particularly on campus. The video, title James is Dead, utilizes the parallels comments typically associated with sexual assault to a situation of murder. This video utilizes humor as the metaphor is designed to demonstrate the ridiculousness of victim blaming statements when in a new context (such as applied to victims of murder). Thus far, students have commented that the video quickly highlights how harmful victim blaming statements can be, while also causing students to reflect on how frequently they hear similar statements within their environments. This conversation allows peer educators to challenge students to perceive such victim blaming statements, similar to rape jokes or sexist comments, as problematic within our campus community.

In 2018-19 AY, Wellness Peer Educators revised the program to include How Do You Know if Someone Wants to Have Sex with You? video by Planned Parenthood. This video demonstrates the various aspects of affirmative consent using actors to portray real situations in which an individual needs to gain consent. This video demonstrates consent through the lens of three different couples, which include both heterosexual and homosexual couples. Thus far, students have commented that the video helps put the concept of consent into practical terms which include actual examples related to asking for and receiving affirmative consent. Additionally, students have commented that they appreciate the video’s inclusion that sharing information with a potential partner about STIs and birth control is a necessary step for affirmative consent. These comments allow peer educators to emphasize the many factors necessary for affirmative consent, such as mutuality and clarity, while also addressing concerns students may have about this concept.

In 2017-18 AY, the presentation was extended to seventy-five minutes to include additional time for interactive discussions yet still fits into block scheduling. Student feedback, solicited during roundtables
and the presentation discussions, demonstrates a greater understanding of affirmative consent as it applies to all sexual activity, more awareness regarding rape culture, and ultimately a greater appreciation for students’ individual role in campus safety and awareness.

The Assistant Director for Student Life Programs and Title IX/VAWA Compliance continues to provide distinct scheduled presentations of the Step Up: Bystander to UPstander course to incoming students in specialized populations: Athletics, Prato study abroad students, Lyme Academy students, Outstanding High School Senior program students, and ESMUS & WHHS program students. Course content remained the same for each presentation with the exception of the high school senior programs, which combined information about their own high school resources with available University resources.

The SDEV 1000 Step UP: From Bystander to UPstander course continues to afford higher compliance with student attendance. Additionally, the courses allows for the standardization of delivered content, and serves as peer facilitated primary prevention during the ‘red zone’, September - October known for its high victimization rates on college campuses. Overall completion rates can be seen in the below chart.

**It’s On Us Campaign**

The White House launched a National It’s On Us campaign in September 2014, for college campuses, specifically their student governments. In coordination with the Center for Student Engagement, Leadership & Orientation (CSELO), the Assistant Director for Student Life Programs & Title IX/VAWA Compliance hosted an It’s On Us Kickoff Greek Life Signing on January 25, 2018. The event featured all representatives from each Greek Life on-campus organization as they committed to the It’s On Us pledge on behalf of their fraternity/sorority. Each representative gave a statement about their organization’s commitment to ending sexual violence within the campus community, and commented on their efforts towards this goal. The event allowed representatives to offer their unique perspective about sexual violence prevention, as it applies to their daily work, community life, and personal interests. The event challenged students to consider how sexual violence may influence their community, and asked attendees to reflect on their Greek membership within the University community.
Information Tables and Additional Programming

A secondary facet of education is the programming regarding sexual violence prevention, response, and University specific policies. The university’s Victimology Club continues to host numerous educational and awareness programs during the academic year. In addition to events sponsored by the Victimology Club, the Wellness Peer Educators sponsor numerous information tables throughout the year to increase awareness (Healthy Relationships tables, Domestic Violence Awareness Month, April’s Sexual Assault Awareness Month, It’s On Us information tables, etc.). During these informational tables, peer educators provide extensive amounts of resources, and promotional items to passing students.

Wellness Peer Educators are responsible for facilitating the SDEV 1000 course in partnerships, where they share responsibility for developing discussion of course content with participants and presenting specific University expectations. Over the latter half of the fall semester and winter break, Peer Educators are responsible for providing additional programming proposals for the identification of new programs for implementation.

The College Advocate, of Milford Rape Crisis Center, sponsors additional awareness programming, supported by the Dean of Students Office and the Wellness Peer Educators. These presentations often take place in collaboration with Recognized Student Organizations and/or the Office of Residential Life within the residential halls.

Awareness & Compliance Initiatives

Know Your Rights Brochure

A primary component of the CT Public Act 14-11 was the requirement to create a “concise notification, written in plain language, to each student and employee of such institution who has been a victim of sexual assault, stalking, or intimate partner violence, of such victim’s rights and options under such institution’s policy”. Thus, the University developed a brochure that would include written Title IX & Sexual Misconduct Policy definitions, resources for confidential disclosure and reporting options, the option to report to law enforcement and/or our institution, our retaliation policy, a notification of the Title IX Coordinator, notice of interim measures, formal complaint procedures, advisor privileges, and an involved party’s rights. This valuable resource is updated annually to reflect the changes made to the University’s policy or procedures, as well as contact information for identified resources.

In order to utilize this document more efficiently, the Dean of Students Office has actively provided this document to offices, which serve as first responders for sexual violence or misconduct reports. This includes the University Police Department, Office of Residential Life, Counseling & Psychological Services, Health Services, and Student Services at all satellite locations. Staff in these offices are directed to utilize this brochure as a roadmap of our students’ rights and options under Title IX of the Education Amendments of 1972 and Violence Against Women Reauthorization Act. By training staff to facilitate a discussion using this brochure, we can ensure that as students report sexual misconduct they are getting consistent and comprehensive information about available support services and reporting options. This document is also used to facilitate conversations with responding parties of sexual misconduct allegations to thoroughly discuss the institutional process and their available options for support.
Sexual Misconduct Policy

Annually, the Campus Resource Team meets to discuss proposed revisions to the Sexual Misconduct Policy. The Assistant Director for Title IX/VAWA Compliance researches best practices and monitors federal recommendations from recent OCR resolutions to determine the most appropriate revisions to policy and procedures for Title IX and VAWA compliance. There were no major adjustments or revisions between 2017-18 policy and the finalized 2018 Sexual Misconduct Policy.

The 2018 Sexual Misconduct policy is utilized in the Title IX training provided to incoming first-year and transfer students through their mandatory new Step Up: Bystander to UPstander course. Notice of the Student Handbook is electronically delivered to all students via an email from the Dean of Students Office. Furthermore, the policy is available for download and review on the University's Sexual Misconduct webpage for public use.

The Dean of Students Office continuously monitors and revises the Title IX webpage, paying particular attention to accessibility, availability, and clarity of this important information. In an effort to ensure increased reporting, the appropriate short links, such as newhaven.edu/titleix, /sexualmisconduct/, /reportit/, and /clery/, are monitored for functionality. Additionally, best practices indicate that searching for key words, such as rape, sexual assault, etc., at the University of New Haven, should result in appropriate reporting options and resources within three clicks. Likewise, the internal University webpage search should provide these results within three clicks. External and internal searches for these keywords most frequently result in the respective informational brochures, the Know Your Rights & Options brochure, and the Sexual Misconduct Policy webpage. Furthermore, the external and internal search for Title IX at the University provides the webpage newhaven.edu/titleix as primary option.

Memorandum(s) of Understanding

Public Act 14-11 requires that all institutions of higher education enter into and maintain a memorandum of understanding with at least one community-based sexual assault crisis service center and at least one community-based domestic violence agency. These memorandums are intended to ensure that students or employees of our institutions can access free and confidential counseling/advocacy services in our local community, as well as to establish partnerships related to training and committee involvement.

As such, utilizing templates from the primary oversight agencies for sexual assault crisis services (CONNSACS) and domestic violence agencies (CCADV) in Connecticut to develop appropriate MOUs with our respective agencies. The University of New Haven entered into Memorandum of Understandings with the following agencies in January of 2015: Milford Rape Crisis Center, BHcare, and Sexual Assault Crisis Center of Eastern Connecticut. The Dean of Students Office and Title IX Coordinator are currently in the process of renewing these Memorandums of Understanding for future years.

Marketing & Publications

Although research has shown that the efficacy of brochures is declining in the wake of social media and technology advancements as a means of publicity, the Responsible Employee and Campus Security Authority brochures were developed to inform individuals identified in these roles of their primary
responsibilities under Title IX or Clery respectively, as well as University reporting procedures. This is an alternative resource for information, and are utilized as supplemental material for online trainings. These brochures were updated in the summer of 2017 to clarify responsibilities and add content specific to supporting students during disclosures of sexual misconduct.

The Sexual Misconduct on Campus: Responding to Students – Employee Guide for Assisting Students is a dual-sided handout that serves as a quick guideline for assisting faculty/staff when a student discloses an incidence of sexual violence. It includes brief instructions for employees during the actual disclosure, informs them of the appropriate support services to refer a student to, and includes the immediate need to report the disclosure to the Title IX Coordinator(s). Faculty and staff feedback has indicated that the resource ensures a comprehensive discussion with students during disclosures and ensures their ability to refer students to University and local resources accurately.

The Resources & Referral Options for Students serves as a quick reference guide for referral and reporting options. It features four categories of reporting options or services that a student in crisis may need to utilize, including Support Services, Emergency Police Information, Housing or Academic Accommodations, and Medical Assistance. Title IX Coordinator information is also prominently displayed on this information to increase visibility and knowledge of the Title IX Coordinator as a resource for students.

The Support & Reporting Options for Survivors of Sexual Misconduct flowchart serves as a quick reference guide for victims of sexual misconduct who may be struggling to identify their reporting options. The flowchart is meant to serve as a visual aid that allows for students to quickly sort through the many reporting options or services that a student in crisis may need to utilize, including Support Services, Emergency Police Information, Accommodations, and Medical Assistance.

Faculty Syllabus Notice

Working in collaboration, the Dean of Students Office and Title IX Coordinator, created a faculty syllabus notice that would be used to increase visibility of the Title IX Coordinator and serve as a notice of nondiscrimination to all students. The statement (see below) is included in the University’s syllabi template and provided to all University faculty at the beginning of the academic year (August 2018).

Commitment to Positive Learning Environment:

The University adheres to the philosophy that all community members should enjoy an environment free of any form of harassment, sexual misconduct, or discrimination. There is an expectation that all community members are committed to creating and supporting a climate which promotes civility, mutual respect, and open-mindedness. There also exists an understanding that with the freedom of expression comes the responsibility to support community members’ right to live and work in an environment free from harassment and fear.

If you wish to report an incident of sexual misconduct to a University employee, please note that they are required to notify our University’s Title IX coordinator about the basic facts of the incident (you may choose to request confidentiality from the University). If you encounter sexual harassment, sexual misconduct, intimate partner violence, or stalking, we encourage you to report the incident to the University’s Title IX Coordinator, Caroline Koziatek, at (203)
Further resources and reporting options are available at www.newhaven.edu/titleix.

If you wish to report an incident of bias-related behavior, such as actions that intimidate, humiliate or demean persons or groups or that undermine their security or self-esteem, you are encouraged to do so by completed the Bias Incident Form, available online at www.newhaven.edu/reportit.

Committees on Sexual Misconduct

The University continues to utilize its two distinct committees for issues of sexual misconduct; the Campus Education and Response Team (‘CERT’) and the Campus Resource Team (‘CRT’).

Campus Resource Team

The Campus Resource Team (‘CRT’) is comprised of individuals selected by the University of New Haven’s President, which include critical campus officials as well as local resources involved in responding to sexual misconduct incidents. The CRT is charged with reviewing campus policies and recommending protocols for providing support and services to students and employees who report being victimized. As this team has allowed for important stakeholders to have a voice in policy and procedural changes related to sexual misconduct, the University has endeavored to host this team at least twice a semester during the 2018-19 AY. Increasing meeting frequency has allowed the University to designate significant time to the training of Campus Resource Team members, while maintaining robust and meaningful discussion of proposed policy or procedural changes.

Campus Education and Response Team

The Campus Education and Response team is a multidisciplinary team comprised of campus and local community resources. The team is charged with proactively educating the campus community on issues relating to sexual misconduct, intimate partner violence, and stalking, as well as providing ongoing educational campaigns for the University community.

To encourage this team to continue to grow and stimulate the discussion of University needs related to education and programming on sexual violence, the team decided to extend invitations to student organization representatives known for their own work on these issues. Thus, invitations to join the CERT were extended to the Victimology Club, Undergraduate Student Government Association, Student Committee on Programming & Events, Wellness Peer Educators, and the All Greek Council. These organizations were able to appoint a member of their organization to serve on the CERT for a full year in a supportive and collaborative role. This enhanced the team’s ability to get real-time feedback from students regarding current programming, as well as the ability to increase the team’s oversight of all events, campaigns, and marketing as related to sexual violence.

The CERT held meetings throughout the year to discuss topics including the development of a unified calendar for sexual violence awareness/prevention efforts, increased collaboration among committee organizations, better use of budgetary funds, and annual review of current programming.

Members of the CERT, include representatives from the following offices:
Sexual Misconduct Process Team

The Sexual Misconduct Process consists of the recruited faculty and staff who serve as trained Sexual Misconduct Investigators, Hearing Board members, and Appeals Board members. This team also includes the Human Resources staff, who work with the Title IX Coordinator to provide a fair and equitable Title IX grievance procedure for University employees. Furthermore, the Title IX Coordinator, Caroline Koziatik, and Deputy Title IX Coordinator, Rebecca Johnson, participate in team trainings. The Dean of Students Office staff pulls these individuals into a large collaborative group that conducts simultaneous trainings. The University has been able to facilitate a strong pool of faculty and staff that are fully qualified to assist on investigations and hearing boards.

During the 2017-18 AY, the Dean of Students Office hosted numerous in-person training events, while also providing a robust blackboard-training site. Training often focuses on the intricacies of Title IX, published best practices, review new OCR resolutions, and the ongoing legislative climate regarding sexual violence. Via blackboard, members are provided four video modules that they were required to participate in, and corresponding quizzes as learning assessments for all videos. Furthermore, Title IX materials are available on blackboard, including diversity and cultural awareness resources, new legislation resources, relevant webinars, and other resources.

Our continuation of cross-training members for all roles in the process is beneficial, and remains necessary for individual members to understand the entire process and the distinct responsibilities of each role.

Report of Complaints of Sexual Misconduct
Brought forward from January 1, 2017 through December 31, 2017

This report contains information about complaints of sexual misconduct that the University of New Haven received notice of and the actions taken by the University to address those complaints. Specifically, this report includes descriptions of all student complaints that were processed through the Sexual Misconduct Disciplinary Process in January 1, 2017 through December 31, 2017.

This report is intended to provide the information requested in CT Public Act 14-11, An Act Concerning Sexual Assault, Stalking, and Intimate Partner Violence on Campus, as well as to inform the Joint Standing Committee of the General Assembly of the efforts the University has taken to combat sexual violence on its campus. This report was composed to protect the privacy of the individuals involved, and identifiable information was not provided to maintain the privacy and confidentiality of the parties involved.

The complaints in this report have been presented in statistical and narrative format and are organized according to the type of action the reporting party engaged in: Formal University Investigation/Hearing, or Informal Institutional Report. In the narrative portion of the report you will find cases that engaged in these processes, and may have engaged in a collaborative process with the Title IX Coordinator, Dean of Students Office, University Police, and Sexual Misconduct Hearing Board.

While this report is intended to be informative and enlightening, there are many limitations to reporting sexual violence on the University campus. The brief narrative descriptions are intentionally vague, as a complete
description of the complexities or specifics of a given case could reveal identifiable information about a given party. Similarly, the report indicates only the type of category the complaint is associated with, such that “sexual assault” may refer to nonconsensual sexual contact or nonconsensual sexual intercourse. The ‘other’ category has been designated for reports of sexual misconduct that do not directly fall into the categories prescribed or there was limited information within the report to designate a specific category of sexual misconduct.

The Milford Rape Crisis Center College Advocate worked with nineteen unique students on issues sexual misconduct in the 2017-18 academic year. These statistics represent confidential reports, of which the University has limited information about. To protect the privacy and confidentiality requested by her clients, the College Advocate does not share identifiable or narrative information with the Title IX Coordinator, unless the report reveals a risk to the larger campus community or a pattern of predation.

In the event that sexual misconduct, gender-based violence, or the crimes of sexual assault, stalking, dating violence or domestic violence do occur, the University of New Haven takes the matter very seriously. The University employs interim protection measures such as interim suspensions and/or no contact orders in any case where a student’s behavior represents a risk of violence, threat, pattern and/or predation. A student responding to allegations of sexual misconduct, other gender-based violence, or such crimes, is subject to action in accordance with the Sexual Misconduct Policy in the University’s Student Handbook. A student wishing to officially report such an incident may do so by contacting the Title IX Coordinator, Caroline Koziatek (203.932.7479 or ckoziatek@newhaven.edu) or Deputy Title IX Coordinator, Rebecca Johnson (203.932.7176 or rjohnson@newhaven.edu). Anyone with knowledge about sexual misconduct or gender-based violence or such crimes is encouraged to report it immediately. Protective measures for victims are available from the campus whether a victim pursues a formal complaint through the University of New Haven process.

The statistics below include all complaints of sexual misconduct brought forward in January 1, 2017 through December 31, 2017, regardless of when the alleged events occurred. The complaints of sexual misconduct are sorted in broad categories based on the reporting party’s allegations. Complaints involving more than one allegation of sexual misconduct are listed only once, based on the primary allegation. The reporting party is the person who reported having experienced a violation of sexual misconduct or (in the case of third-party complaints) the person who is reported to have experienced it. The responding party is the person (or persons) alleged to have committed the misconduct.

*These statistics may vary from the published Annual Security Report statistics as it only includes those reports that the University received notice of and which engaged in the disciplinary process. Clery reportable crimes may also include aggregate data provided by confidential resources, such as Health Services, Counseling Services, and the Milford Rape Crisis Center College Advocate, which can appear as an increase in reported sex offenses.
### Formal Institutional Reports

*During the 2017 calendar year (January 1, 2017 – December 31, 2017), there were 5 new formal complaints brought forward to the Sexual Misconduct Investigation Team and/or Hearing Board, which are reported in this table.*

The University of New Haven is a community committed to providing an environment that promotes excellence, responsibility, respect, understanding, integrity, and service.

The University adheres to the philosophy that all community members should enjoy an environment free from sexual misconduct of any kind.

You ARE a University of New Haven RESPONSIBLE EMPLOYEE.

The University of New Haven is continually working to remain in compliance with regulations regarding Title IX of the Education Amendments of 1972. The University does not discriminate on the basis of sex in the areas of education, employment, and public accommodation. Title IX has regulated that institutions must identify “responsible employees.” Responsible employees are tasked with reporting all incidents of sexual or gender-based harassment/misconduct and are required to participate in training throughout the academic year. The University’s Sexual Misconduct policy recognizes that the term sexual misconduct includes sexual assault, non-consensual sexual contact, non-consensual sexual intercourse, sexual exploitation, sexual harassment, intimate partner violence, stalking, and intimidation.

The Department of Education’s Office of Civil Rights defines a responsible employee as any employee:

- who has the authority to take action to address sexual harassment/misconduct;
- who has been given the duty of reporting incidents of sexual harassment/misconduct or any other misconduct by students to the Title IX coordinator or other appropriate designate;
- who a student reasonably believes has this authority or duty.

As such, any member of the University of New Haven community who is currently employed by the University has been designated as a responsible employee. The University of New Haven is also required to offer training for responsible employees on the subjects of sexual misconduct, gender-based harassment, and similar topics annually. Participation in such trainings allows for all responsible employees to understand and correctly use the reporting structures for sexual misconduct complaints as well as to assist students who may wish to make these complaints. It is the University of New Haven’s sincerest hope that, through participation in training, each member of this community can actively work to prevent all gender-based and sexual discrimination/misconduct.

The University has appointed a Title IX coordinator, to whom all complaints and grievances may be reported. The Title IX coordinator works collaboratively with offices throughout the University to ensure a timely, effective, and comprehensive response to all sexual misconduct-related complaints.

The University provides all community members with access to its Sexual Misconduct Policy, which details procedures as well as possible sanctions for sexual misconduct policy violations. As a responsible employee, you should be well informed of these policies and review them often.

Title IX requires that responsible employees report all known incidents of sexual discrimination or misconduct. If doing so, you are required to disclose as much information about the incident as you have available.

For any further inquiries about your role as a responsible employee, please contact:

Caroline Kociatk
Title IX Coordinator & Diversity Officer
203.932.3489
ckociatk@newhaven.edu

Before speaking to a student about a concern, it is your responsibility to:

- Notify them that as a responsible employee, you are required to report all known facts related to sexual misconduct to the Title IX Coordinator, which may include personally identifiable information.
- Advise them that they can ask the University to maintain confidentiality. While every effort is made to preserve the privacy of the student, confidentiality cannot be guaranteed if the University determines that a formal investigation is needed to effectively respond to the harassment and prevent the harassment of other students.
- If they wish to discuss the incident in complete confidence, they should report to only those licensed professionals in Health Services, Counseling and Psychological Services, or the University Chaplain. The College Advocate is a confidential resource available through our partnership with Milford Rape Crisis Center.

When you assist a student with a concern, it is your responsibility to:

LISTEN: Create a safe environment by actively listening, and responding in a nonjudgmental supportive manner. Inquire about their immediate safety.

PROVIDE: Ensure their wellbeing by providing information about resources on- and off-campus. Connect them with any support services, if they so choose.

ENCOURAGE: The University encourages all those who have experienced sexual misconduct to seek out all available campus and community resources, and pursue University conduct action and/or legal proceedings against the offender.

ALERT: Inform the Title IX Coordinator, or Deputy, of the student’s disclosure. You must report all known information.

Campus Security Authority (CSA) has been legally defined as:

As a matter of practice, they are encouraged, if and when they deem it appropriate, to inform persons being counseled of the procedures to report crimes on a voluntary basis for inclusion in the annual crime statistics.

The University of New Haven is also required to report any arrests, referrals, and reports made annually. This includes weapons, substance use, and alcohol violations. Statistics of these violations include whether an individual was held responsible and whether the incident has been investigated.
The Clery Act also requires that the University use timely warning notifications in cases of emergency. Thus, the University uses emergency procedure technologies such as the EmergEye app, text, phone automated messages, email, and online notifications.

The University is also required to provide an Annual Security and Fire Safety Report, available on the University’s website at www.newhaven.edu/clery. This report includes the annual disclosure of statistics for offenses that occur on campus—on or on non-campus buildings—on property owned or controlled by the University, as well as on public property within, or immediately adjacent to, our campuses.

- One study found that 51% of LGBTQ relationship abuse victims were women, 42% were men, and 5% were non-binary.

- Physical and sexual abuses often occur.
- LGBTQ abuse may threaten to “out” their partner that the threat of isolation is intensified.
- RHOCares sets out to work help out of fear of sharing a lack of publicity with the LGBTQ community.
- Individuals in same-sex couples are more likely to fight back, which hurts authorities to think the abuse is mutual.
