Office of Early Childhood

Our Vision

• All young children in Connecticut are safe, healthy, learning and thriving. Each child is surrounded by a strong network of nurturing adults who deeply value the importance of the first years of a child’s life and have the skills, knowledge, support and passion to meet the unique needs of every child.

Our Mission

• To support all young children in their development by ensuring that early childhood policy, funding and services strengthen the critical role families, providers, educators and communities play in a child’s life.
Office of Early Childhood

Our Work

• Provides funding, standards, regulations, training and oversight to ensure that early care and education programs for young children are safe, healthy and nurturing; effectively support children’s physical, social, emotional and cognitive development; and, are accessible to all children, particularly those facing barriers, risks or challenges to their healthy development and success.

• Provides home visiting services, funding and training to support families raising young children to ensure the children’s health, well-being and positive growth and development and to prevent child abuse or neglect.
