

Population Result

“All the state’s children grow up in a stable living environment, safe, healthy, and ready to lead successful lives.”

HEALTHY:

(January 5, 2012 Meeting - Revised)

Headline Indicators (2-3)

| |
|---|
| 1. Healthy Births: Singleton low birth weight (Data available from DPH) |
| 2. Percentage of children with healthy BMI (Data available from DPH) |
| 3. Adolescent Depression |

Secondary Indicators (4)

| |
|--|
| 1. Percentage of Families with Insurance (US Census & Other Sources) |
| 2. Percentage of Children Immunized (Data Source DPH) |
| 3. School Expulsion or Suspension due to Behavioral Health Issues (SDE) |
| 4. Asthma: Both ER Visits and Prevalence (DPH) 5. Percentage of All Children on Husky Getting Recommended Well Child Visits |

Research Needed/Data Agenda:

The SDE issues two forms to schools and pre-schools: The Early Childhood Health Assessment Record and the Health Assessment Record. Both forms must be filled out before a child can attend pre-school and grades K-12 in Connecticut. Our Work Group has suggested a bill be introduced in the Legislature to mandate electronic record keeping of these forms that can be shared. Identification of individuals would be kept private. Currently, these forms are filed and kept in the local schools for their use only.
